## Software Engineer

✉ kanhavishwakarma2003@gmail.com ☎ +91-9522288085 🌐 LinkedIn 🏠 GitHub 📁 kanha2003 📍 Ahmedabad

### PROFILE

Software Engineer with 2+ years of experience specializing in React.js, TypeScript, and Node.js. Proven expertise in migrating .NET applications to React (v18+), building reusable component libraries with Storybook, and implementing state management using Redux Toolkit and React Query. Achieved 25% faster rendering and 40% accelerated development cycles through performance optimization. Proficient in RESTful APIs, MongoDB, Express.js, Next.js, and Tailwind CSS. Experienced in delivering scalable applications with JWT authentication and role-based access control. Strong problem-solving skills with consistent contributions on LeetCode.

### EXPERIENCE

**SOFTWARE ENGINEER, VAGARO TECHNOLOGY** 🌐 06/2024 – Present | Ahmedabad, Gujarat

- Led the end-to-end development of a foundational UI Component Library using Storybook and TypeScript. Establishing this design system standardized UI patterns and is now actively used across the entire Vagaro product ecosystem, accelerating feature rollout for all teams.
- Spearheaded the migration of large-scale legacy .NET modules to a modern React (v18+) architecture, significantly improving maintainability and developer velocity.
- Optimized application performance, achieving a 25% reduction in rendering time by implementing lazy loading, code splitting, and advanced caching strategies with RTK Query.
- Architected scalable global state management solutions using Redux Toolkit, ensuring seamless data synchronization across complex workflows.
- Integrated high-performance RESTful APIs, utilizing React Suspense and custom hooks for efficient, non-blocking data fetching.

**FULL-STACK DEVELOPER (Promoted from Intern), QUALITYWEBS** 🌐 01/2023 – 12/2023 | Indore, MP

- Engineered high-performance full-stack web applications using PHP and React, driving improvements in site reliability and user engagement.
- Optimized complex MySQL database schemas and query execution plans, reducing server response times and improving overall application efficiency.
- Modernized development workflows by implementing CI/CD pipelines and strict Git strategies, significantly accelerating release cycles.
- Enforced code quality standards through rigorous peer reviews and unit testing, resulting in a measurable reduction in production bugs.

### SKILLS

**Frontend ::** React.js | Redux Toolkit | TypeScript | Next.js | JavaScript (ES6+) | HTML5 | CSS3 | Tailwind | SCSS | Bootstrap

**Backend:** Node.js | Express.js | JWT Auth | RESTful-APIs

**Database:** MySQL | Aggregations | MongoDB | Schema Design

**Tools:** Git | GitHub | Postman | Storybook | GitHub Copilot | Claude Code | Figma

### EDUCATION

**B.TECH IN COMPUTER SCIENCE, Sushila Devi Bansal College of Engineering** 06/2024 | Indore  
CGPA: 7.78

**Higher Secondary Certificate (Class XII), EBVM SCHOOL** 05/2020 | Indore  
Percentage: 82.6

**Secondary School Certificate (Class X), EBVM SCHOOL** 05/2018 | Indore  
Percentage: 73.4

### CAREER HIGHLIGHTS

**PRATIFAL** 🌐, [GitHub Link](#) 09/2024 – 01/2025

- Built a full-stack MERN application for centralized coupon and rewards management with JWT authentication and role-based access control (RBAC) for enhanced security
- Designed RESTful APIs using Node.js and Express.js with MongoDB for efficient data storage, enabling seamless multi-device synchronization
- Developed responsive React frontend with Tailwind CSS, implementing CRUD operations for coupon management and user-specific dashboards
- Currently developing a Chrome extension to automate coupon detection and storage, improving user accessibility and reducing manual effort
